AQMD Rule 301(e) requires that facilities declare the total emissions for the six-month transitional reporting period (7/1/2007-12/31/2007) of each of the air contaminants concerned from all equipment, regardless of the quantities emitted. Please read all the information contained in the package before completing the forms to ensure accurate reporting.

Form CU - Non-Permitted Emissions Summary

Note: Please include only **non-permitted** emissions on this form. **Please note that, under Rule 301(e), non-permitted emissions are subject to emission fees beginning with the 2001-2002 reporting cycle.** Please refer to the General Instruction Book for the definition of non-permitted equipment under Frequently Asked Questions. Under Rule 301 (e), you must keep separate records for your non-permitted equipment, which would allow the determination of emissions from such equipment.

Facility Name and ID No.: Please fill in your facility name and facility ID number in the designated spaces, exactly as indicated on Form X (Signature Sheet) in your package.

Emissions: Transfer the total emissions in tons from the last line of each of the listed forms (e.g., B1U, B2U, etc.) to the appropriate cells on Form CU. Please ensure that the emissions have been rounded off to two (2) decimal places.

Total Non-Permitted Emissions: Total the emissions for each pollutant (tons) rounded off to two (2) decimal places. Transfer Line 7 totals to Form S, column (b) in corresponding rows for each of the Criteria Pollutants except Methane.
